

# CONTENTS

	List of Figures	v
	Preface	ix
	Acknowledgments	xi
	About the Author	xiii
1	Evaluation and Logic Models	1
2	The Uses of Logic Models	11
3	The Components of a Logic Model	21
4	The Connections in a Logic Model	31
5	Developing Logic Models to Support Evaluation	44
6	Developing Logic Models of Differing Complexity	52
7	Using a Logic Model to Identify Evaluation Questions	65
8	Using a Logic Model to Support Explanatory Evaluation	76
9	Challenges in Developing Logic Models	87
10	Developing Logic Models for Complex Projects	96
11	Using Logic Models to Evaluate a Family of Projects	108
12	Using the Logic Model to Provide Technical Assistance	117
	Appendix: The Phases of an Evaluation	127
	Glossary	135
	References	141
	Index	143
