

Thank you for your interest in UNI's Cooperative Education/Internship Program. Since the program began we've had students participate in over 10,000 internships. We list internships for all majors. By registering on-line through UNI CareerCat you can post your position for free.

Our on-line registration and posting link is: <https://uni-csm.symphlicity.com/employers/>

If you are a **non-profit or government organization** you may benefit through [federal Community Service Learning](#) (CSL). This “off-campus work study” opportunity reduces the expense of hiring students. CSL pays 75% of wages and can often attract a greater number of applicants for positions that might otherwise be offered on a volunteer basis.

Once your position is filled I request that you deactivate it by changing the end date of the CareerCat listing. That way you will not continue to receive resumes from students.

The Co-op/Internship Program telephone number is (319) 273-6041. Our fax number is (319) 273-6401.

Al Stamberg
Cooperative Education & Internships Director
