

Co-op/Intern Spotlight

Jeremy

Jeremy had the opportunity to complete his internship with Premier Property Management. As Desktop Publisher and Webmaster, Jeremy built and managed websites, designed various print pieces such as newspaper ads and flyers, and helped design the company's business identity. Premier Property Management has only been in operation for a short time here in Cedar Falls.

The highlight of Jeremy's experience at Premier was watching the business become a mature company. Through this opportunity, Jeremy feels that he has received great "real world experience" that he will be able to use in his future career. In fact, Premier offered everything that he would like to pursue in a professional career. He especially feels that he has a much better portfolio, both print-based and web-based, from it as well.

Advice Jeremy would give to students who are thinking about a co-op or internship is to "find an internship that represents what you want to do when you leave college. The entire experience is priceless."
