

Co-op/Intern Spotlight

Megan

After sending her resume out to several businesses in the area, Megan obtained a position at XPRESSIONS, a design company that specializes in apparel design. At XPRESSIONS, she utilizes her knowledge of Adobe Illustrator to create attractive designs that fit the client's wants and needs. She loves to come to work every day because her co-workers are so friendly and fun and the environment is pressure-free. Megan's internship allows her to work around her school schedule because they understand that her schoolwork is her priority.

The hands-on experience that Megan gained through her internship added to what she learned in the classroom in a very positive way. Before she started working at XPRESSIONS, Megan was unsure about what she wanted to do after graduation, but this internship has confirmed that she made the right decision. With the experience that Megan is obtaining she feels that she will have a foot in the door after graduation.

Major at UNI:

Art: Graphic Design

Location:

Cedar Falls
