

Biomes in a Changing Climate

Item 1: I want to know about environmental issues.

Item 2: I can help solve environmental issues.

Item 3: Only adults need to know about environmental issues.

Item 5: If the weather and climate change, it will change biomes and the lives of plants, animals, and people in the biomes.

Item 8: The rain forest, desert, and grasslands are examples of biomes.

Item 13: Only elected officials, like the president or senators, can make a difference in global issues.

Item 16: What I buy at the store affects the environment.

Item 18: I can take action (write a letter, plant a tree, make a choice about what to buy) that will help the environment.
