

Course Requirements

Undergraduate Requirements

Examinations

There will be three tests. The portion of the course to be covered in each test is detailed in the Weekly Assignments Schedule. Each examination will consist both of multiple choice and essay questions; detailed study guides will be distributed well in advance of each test.

Course Essay

Each student must write a course essay. Details of the assignment and the list of essay topics may be found in the Course Essays document elsewhere on this page. The course

Grading

Each of the three tests is worth one hundred points, as is the course essay. Each of the tests, and the course essay, counts one-fourth of the course grade. At semester's end, I will average the numerical grades together to arrive at the letter grade that the Registrar expects.

I do not post course grades. If you would like to know your course grade before the Registrar mails it to you, please contact me at my UNI e-mail address.

IMPORTANT WARNING

Failure to complete or submit any assigned work (one or more tests or the course essay) by the end of the period scheduled for the final examination during exam week will result in your receiving a course grade of "F".
