

University of Northern Iowa
Department of Residence
Posting Policy
EFFECTIVE July 1, 2009

In order to (a) substantially reduce paper waste*, (b) reduce fire hazard, and (c) improve communication to students, the Department of Residence is no longer accepting materials to be posted within the residence halls.

To help residents stay informed about university activities and business, a limited number of bulletin boards in high traffic areas of each residence hall will be replenished every Monday with an enlarged version of My UNiverse News. RAs will stress with residents the importance of reading My UNiverse News online and/or one of the bulletin boards.

All UNI departments and student organizations are strongly encouraged to submit items to My UNiverse News when attempting to communicate with residence hall students.

(Items that violate Department of Residence policies will be omitted before My UNiverse information is posted.)

*More than 60, 000 sheets of paper were posted throughout the residence system in 2008-2009.
