Distance Education Enrollments 1,223

Business & Community Services Clients 870

Provides an integrated approach to meeting the needs of businesses, entrepreneurs and communities throughout Iowa and beyond. BCS leverages the intellectual capacity and practical experience of faculty, staff and students to solve the problems of its external constituents through specialized training and technology transfer, small business counseling, market research and analysis, innovative educational and technical advice related to the environment and environmentally sound practices, and hands-on community and economic development guidance.

UNI Outreach Activities in Black Hawk County

Center for Economic Education (CEE)

Works to increase the quantity and enhance the quality of economic education programs from kindergarten through college by conducting programs for teachers and working with school district officials to distribute appropriate curriculum materials.

Center for Energy and Environmental Education (CEEE)

Nurtures a positive environmental ethic and develops environmental literacy in children and adults. This mission is carried out through educational programming, instructional materials development, educational research, and community outreach.

Center for Social and Behavioral Research (CSBR)

Conducts original research and provides research-related services for community, state, and federal agencies.

Executive Development Center (EDC)

Provides comprehensive and leading-edge leadership training and education to business people and organizations to improve and maximize their performance and results in today's challenging and competitive business world.

Gallagher-Bluedorn Performing Arts Center (GBPAC)

Offers innovative programs and services designed to provide quality arts education experiences to individuals, families, and communities throughout the state.

Geographic Alliance of Iowa (GAI)

Works to improve the teaching of geography concepts and content by helping to develop high quality teaching materials and the training to use them.

GeoInformatics Training, Research, Education, and Extension (GeoTREE)

Transfers geospatial technologies to the individuals from federal, state, local, and tribal government (FLST) agencies through education, multi-disciplinary research, and outreach activities.

Institute for Decision Making (IDM)

Serves as an economic and community development resource that guides local leaders as they make decisions and take organized action to improve their communities through results-oriented initiatives.

Institute for Educational Leadership (IEL)

Promotes the improvement of elementary, secondary, and post-secondary education throughout Iowa by serving as a catalyst for informed dialogue on educational issues impacting schools, developing collaborative relationships with individuals and/or organizations external to schools, and educational policy development.

Integrative Services Project (ISP)

Works to enhance the safety and sobriety of battered substance abuse women by ending discrimination in service provision through research, agency education, technological support, and collaboration among service providers.

Iowa Center on Health Disparities (IChD)

Provides a field-based training program that improves the cultural competency of health pre-professionals while increasing access to health programs for under-served and diverse populations.

Iowa Center for Immigrant Leadership and Integration (ICILI)

Guides and prepares Iowa communities and businesses as they accommodate immigrant and refugee newcomers living and working in Iowa.

Iowa Waste Reduction Center (IWRC)

Serves small businesses by providing assistance with environmental regulations, waste reduction, and the latest environmental technologies.

John Pappajohn Entrepreneurial Center (JPEC)

Fosters the development of entrepreneurship throughout Iowa by providing and facilitating support for a variety of direct educational, consultative, and other services.

Metal Casting Center (MCC)

Provides educational services and technology transfer activities to promote increased productivity for the metal casting industry.

National Ag-Based Lubricants Center (NABL)

Provides a national focus for research and technology transfer activities that creates and nurtures the commercialization of bio-based lubricants; which will expand market opportunities for the agricultural community, minimize environmental impact, and help the United States become more energy independent.

UNI Outreach Activities in Black Hawk County

National Program for Playground Safety (NPPS)

Serves as a public resource for the latest information on playground safety and plays an active role in injury prevention on playgrounds.

Recycling and Reuse Technology Transfer Center (RRTTC)

Provides an interdisciplinary research, education and outreach center serving Regent university researchers and students, Iowa citizens, business, and industry. The RRTTC's goals include the development of economical approaches to solving intractable solid waste problems and providing research and technical assistance on public health concerns as they relate to solid waste concerns.

Regents' Center for Early Developmental Education

Focuses on improving early childhood education in Iowa and supports educational efforts that emphasize children's interest, experimentation, and cooperation.

Regional Business Center (RBC)

Offers technical, financial, and support services through classes, counseling, and a business resource library for Northeast Iowa entrepreneurs.

Science center for Teaching, Outreach, and Research on Meteorology (STORM)

Initiates, supports, and coordinates activities that relate weather information and conceptual models of the atmosphere to user communities in Iowa and the Midwest.

Small Business Development Center (SBDC)

Offers small business counseling services and educational programs for business formation.

Strategic Marketing Services (SMS)

Helps businesses grow by delivering accurate, affordable marketplace intelligence through long-term market research and technical assistance.

Sustainable Tourism and Environment Program (STEP)

Provides an opportunity to join community and University resources in developing tourism opportunities which enrich our social and cultural heritage, environmental quality, and economic well-being.

Suzuki School

Provides individual and group lessons for over 200 children studying the violin, viola, cello, string bass, flute, and harp. The School also provides an adult string program and hosts numerous recitals and performances.

Tallgrass Prairie Center (TPC)

Provides research, techniques, education, and source-identified seed for restoration and preservation of native vegetation systems.

UNI Museums

Offers events and programs to heighten student and public awareness of environmental and cultural diversity and serves as a forum for the discussion of global issues.

Youth Fitness & Obesity Institute

Provides the foundation for research and development activities designed to address the growing concerns related to youth fitness levels and childhood obesity.

2+2 Program

Allows students to complete two years of a teacher education program through community college courses and then two years of classes taught by UNI faculty on location at the community college.
