Is There Statistics Consulting Available?

Statistical Software

The University of Northern Iowa is providing statistical consulting services to faculty, students, staff and the community at large through the Statistical Consulting Center. The Consulting Center has just recently been initiated and is currently staffed by Mark Ecker, a Ph. D. statistician in the Mathematics Department, along with an undergraduate assistant. Individuals who are engaged in data-driven research would most benefit from this service.

Due to the budget situation, the statistical consulting center can provide very limited service. Contact Professor Ecker at (319) 273-2943 with any questions.

Also, see Statistical Consulting Lab (SCL), starting February 1, 2006 and running until at least May 2007 at:
