Planned Network Outage

Tomorrow morning, Thursday, March 20, ITS fiber techs will be moving several fiber paths to new fiber between Baker and Curris. This work will begin at approximately 6:00am and should be complete by 6:30am. Individual outages are not expected to last more than 1 minute each. Affected segments include:

- * backbone segment (e-mail gateways, www.uni.edu, dhcp servers, authoritative dns, etc.)
- * memfis
- * administrative mainframe
- * myuniverse web servers
- * ITS unix servers (sunny)
