Subject: Faculty and staff employee eligibility for Adobe Education CLP—Student Licensing Program

Dear Valued Education Customer,

Adobe is excited to announce that we are extending student pricing to faculty and staff employees permanently!

This letter (“Letter”) represents Adobe’s (hereinafter “we” or “us”) permission to allow CLP Volume Licensing customers to offer Student Licensing prices to faculty and staff employees. Under the terms of the Adobe Education CLP Agreement and Student Licensing Addendum (Schedule D) (“Student Enrollment”), faculty and staff employees shall be included as ‘students’ as referenced by the Student Enrollment.

Hereinafter “you” or “your” refers to qualified institutions that are currently enrolled in the Adobe Student Licensing Option in the U.S. or Canada that would like to allow faculty and staff to participate under their Student Option Schedule D Enrollment. This permission is granted as an additional right under such Student Enrollment and as such shall remain in effect only while you have the Student Enrollment in effect. You may consider this change to be part of your current Student Enrollment that will automatically take effect on March 15, 2008. You don’t need to do anything to accept this Letter.

No amendment or waiver to this Letter shall have effect unless signed in writing by both parties. Your use of the permission granted above represents your acceptance of the conditions above.

If you have any questions, please contact your Adobe Education Reseller.

Sincerely,

Adobe Systems Incorporated
