

## UNI Employee Wellness at the Student Health Clinic

While the Student Health Clinic primarily serves students, there are also services available to UNI faculty and staff:

### *Flu Vaccinations*

- Staff and faculty can receive their flu shots annually on campus at the posted flu clinics.
- See our web site for postings of the flu clinic locations, dates and cost of the vaccine each year ... [www.uni.edu/health](http://www.uni.edu/health)
- The cost of the flu vaccine can be filed to your health insurance company, you can pay by check or cash, or we can payroll deduct the cost of the flu vaccine if you prefer.

### *Over-the-Counter Medications*

- Over-the-counter medications are available to staff and faculty. The prices of these products are competitive with the community and are often lower than retail prices.
- The pharmacy dispenses medications that are used most frequently by our students such as:
  - Allergy treatments
  - Pain and fever reducers
  - Stomach upset treatments
  - First aid supplies
  - Cough and cold products
  - Acne/skin care products
  - Vitamins
- If there is a product you would like to have us carry – contact us at: [healthcenter@uni.edu](mailto:healthcenter@uni.edu)

For more information or to make an appointment, contact:  
The UNI Student Health Clinic 319-273-7425 or [healthcenter@uni.edu](mailto:healthcenter@uni.edu)

## ***Travel Counseling and Immunizations***

- The Student Health Clinic offers international travelers:
  - Up-to-date travel information
  - A review of immunization records
  - How and when to seek medical care
  - An international vaccination certificate
  - Vaccination recommendations
  - Disease prevention information
  - Travel tips booklet
- We are happy to offer travel consultation to staff and faculty. There is a charge for the consultative service plus the cost of any needed vaccinations.
- We will file those charges directly with your insurance, or we can payroll deduct the cost of the consultation and vaccine, if you prefer.

### ***Travel Immunizations***

- Vaccines available at UNI Student Health Clinic:
  - Hepatitis A (series of 2 vaccines)
  - Hepatitis B (series of 3 vaccinations)
  - Anti-malaria medication
  - Typhoid vaccination
  - TB testing
  - TD (Tetanus)
  - Meningitis Vaccine
  - Polio Adult Booster
  - Yellow Fever
